

ABOUT US

Modern Yesterday is a teen rock band (14-16) from Philadelphia. They have been playing shows all over the PA, NJ, NY and DE area for the last few years, at both large festivals and historic rock and roll venues. As their name suggests, Modern Yesterday plays all the top hits from the 70s through today. During 2022, they released their first original single, NO WAY OUT, which was played on radio stations in PA, NJ and in the UK, as well as placing in the Top 25 nationally in the Journey's Sad Summer Battle of the Bands competition. They are sponsored by California based company Anatomy of Sound, and attended and performed at the NAMM conference in January, 2024, as well as played gigs at both the legendary Viper Room on Sunset Boulevard in West Hollywood and the Anaheim House of Blues. The band was also selected by Live Nation to play at the High School Rock Off at the Rock & Roll Hall of Fame, and competed as one of the Final 12 bands from around the country in March. Every member of Modern Yesterday is a multi-instrumentalist and devotes almost every free moment they have to music, playing not only in the band but in various ensembles of every style and genre around Philadelphia and the surrounding areas. They are currently concentrating on finishing several more original singles, and plan to release an EP in the coming year!
